Dear City Resident:

The sanitary cart program is easy-to-use and provides customers with a convenient, efficient, and sanitary way to collect and dispose of their garbage. It also greatly reduces litter, animal scavenging, odors and the spread of infectious disease. The carts Emmett Sanitation distributes specifically match the collection equipment and they cannot service or accept liability for damaging customer-owned carts of any type.

In some areas, due to routing or other uncontrollable factors, such as street or overhead clearance limitations, you may be asked to place your cart in a different location for weekly service so that it can be safely reached by the collection trucks. Your cooperation allows the system to operate properly and is greatly appreciated. The collection trucks have a mechanical or robotic claw designed to pick up and empty the cart. Please see the helpful “Cart Placement Guide” above on how to position your cart for weekly service.

Frequently Asked Questions

Where do I place my cart for pick up?
You can place the cart curbside, or as close to the curb as possible by 6am on collection day. Placement shall be at least four feet from any obstruction: including vehicles, fences, mailboxes, trees, shrubs, utility poles and building overhangs (must have 14 feet minimum of overhead clearance). The cart must also be placed in a visible location where there is no risk to it being blocked by cars and trucks.

Do you offer different cart sizes?
Customers can choose from a 64- or 96-gallon option. You can change sizes one-time at no charge.

Can I get more than one cart?
For a small monthly fee, you may order an extra cart by calling Emmett Sanitation at 208-365-6103.

What types of waste can I put in the cart?
You can place all regular household and yard waste into the cart. Do not put hot ashes, coals, construction or demolition debris, rocks, dirt, used motor oil or other hazardous material in the cart.

What if I need to dispose of a large item that will not fit into the cart?
If you have a large item that will not fit into the cart, please contact Emmett Sanitation. You can easily arrange disposal for mattresses, furniture, appliances, etc. by calling 208-365-6103.

Will you pick up anything that is placed outside the cart?
Overflow Stickers are required to be used under the new program. Overflow trash must be placed in a 32-gallon garbage can, bagged first. One sticker per can.
How much do overflow stickers cost and where do I get them?
Each year, households will receive five FREE Overflow Stickers with a City Utility Billing at no charge. The stickers will arrive in the mail or you may retrieve them in-person at City Hall if you take an electronic billing. You may order an extra cart or additional stickers by calling Emmett Sanitation. One sheet of five stickers costs $7.00.

How do I use the overflow stickers?
- Overflow Stickers will work on 32-gallon cans only; bags of trash set out at the curb will not be collected.
- Each sticker allows for a single use and will be removed at the time of pick-up.
- Overflow stickers never expire so you can use them year to year.

How do I dispose of my old garbage cans?
Customers should clearly mark the old cans or contact Emmett Sanitation to arrange removal at no charge. Some households may find it helpful to retain an old can to be used with the overflow sticker program.

How do I dispose of seasonal leaves and Christmas trees?
A special leaf collection program is offered from November 1 – November 30 of each year. Simply use paper yard waste bags available at local retailers and set them out by 6am on your trash collection day. All other times of the year, leaves can be put in your sanitary cart. Christmas trees are collected January 1 – January 15 of each year. Strip the tree bare and set out by 6am on your trash collection day.
